Title, Location	Estimated Cost	Estimated Schedule (**NEPA Milestones)		Description
Complex Command Center at the Y-12 National Security Complex *		Determination Date:	3-Jul-08	This project would be a new Emergency Services Complex that would consist of the replacement of the current fire station, the PSS office and Emergency Operations Center. As part of the NNSA modernization initiative, NNSA would transfer the parcel of real estate at Y-12, under Section 161(g) of the Atomic Energy Act, to a private development corporation or the General Services Administration. The private development corporation would finance and construct the new facility and lease it to NNSA's management and operating contractor. The new complex would be constructed within a previously developed area on the east end of Y-12. The new facilities would require approximately 50,000 to 70,000 square feet of floor space.
