NOTICE OF COMPLIANCE DETERMINATION

Issued on: August 30, 2010

On April 7, 2010, the Department of Energy (DOE) issued a Subpoena for Information and Production of Documents to Arçelik A.Ş (Arçelik) in response to information received by DOE indicating that Arçelik's Blomberg brand refrigerator-freezer, model # BRFB1450, exceeds the applicable Federal energy conservation standard. DOE received a timely response to the Subpoena. In its response, Arcelik provided test data, which DOE reviewed.

To verify compliance with the DOE conservation standards, DOE issued a test notice on June 17, 2010. In accordance with the test notice, DOE conducted energy consumption tests on four units of Arçelik's Blomberg BRFB1450 refrigerator-freezer. The test results indicate that Arçelik's Blomberg BRFB1450 refrigerator-freezer meets the federal energy standards for maximum energy use and the Energy Star program requirements.

DOE has determined that Arçelik's Blomberg BRFB1450 refrigerator-freezer complies with the applicable energy conservation standard. This case is now closed. Please provide Christina Pak with the address to which DOE can return the four units of Arçelik's Blomberg BRFB1450 refrigerator-freezer.

If you have any questions, you may contact Christina Pak of my staff at (202) 586-4114.
